Raising the Standard of Bitcoin Education

In Phase 1 we rebuilt the Educator Training Program from the ground up, and the first cohort delivered:

Confidence in teaching Bitcoin jumped from 61% to 89%.

“The 3-day training course was excellent! I feel honored to be part of this incredible Bitcoin movement.”

Premiering at our Unconference in Prague

Filmed in Kenya. Premiering in Prague.

In April, we filmed the first episode of a four-part documentary series in Kenya, interviewing over 20 individuals from Kenya and Uganda. The goal: to capture the emotional impact of decentralized Bitcoin education. Something numbers alone cannot convey. While this report shows scale, the documentary reveals transformation, bringing to life how individuals reshape their futures through access, knowledge, and identity.

Directed by Kyle Huber

Produced by the My First Bitcoin Team

First episode of a four-part series.

Each episode is recorded at one of our Unconferences.

See You in Prague!

Join us at the Educators Unconference.
